

GIFT OF HOPE

SRI LANKA is currently facing its worst economic crisis since its independence in 1948. It has led to near-depletion of foreign exchange reserves, shortages of essential supplies of fuel, gas and medicine supplies and soaring levels of inflation affecting basic commodities. In the wake of these and other compounding crises, all Sri Lankans have had to tighten their budgets and struggle over acquiring their essentials. However, the impact on the most vulnerable households have been severe.

World Vision Lanka (WVL) has been successful in implementing the 'Happy Meal' campaign initiated since May 2022. This project was begun to provide a meal day to the most vulnerable children across the country, most of whom would otherwise go without. It continues to assist many families who are affected by the current economic crisis in multiple ways.

THIS CHRISTMAS, WVL aims to spread laughter, peace and joy among children amidst the trials of the time. Through various contributions that we receive from our generous partners, we aim to provide a gift of hope for children by equipping them with the necessary school supplies for the new school year in 2023. We want to give them the opportunity to reach their potential today so that they can be the future leaders of our nation tomorrow.

Our field office in **TRINCOMALEE** has identified many children who are most often unable to purchase the required stationery to attend school. While we work with the families to support their livelihoods and long-term financial stability, we also want to make sure that children are ready with the resources to engage in their education today.

KEY OBJECTIVE
To provide an opportunity for underprivileged children to access education and the necessary school supplies to realise their purpose and to reach their highest potential
